

Schaerer Coffee Joy

Small, smart and fully automatic

 **schaerer**

Coffee comes to life

Superior class in a compact design

Superb quality at the press of a button, an elegant compact design and simple operation: Schaerer Coffee Joy is a delight for smaller applications that call for 30 to 50 cups a day.

The small professional

With a width of only 30.5 cm, Schaerer Coffee Joy is the smallest in our range of fully automatic coffee machines. It is ideal for applications such as bars, offices and meeting rooms. When it comes to coffee quality, beverage selection and operating comfort, it matches the capabilities of our larger high-performance coffee machines. Like these, it contains the latest Schaerer coffee machine technology and a fully automatic milk system.

Six different beverages just a touch away

Whether your preference is espresso, café crème, cappuccino or latte macchiato: just a small tap on the touch panel and Schaerer Coffee Joy guarantees you great coffee enjoyment. In addition, hot milk, milk foam or hot water can be dispensed by a simple touch. Thanks to the “double function” buttons and the double outlet, Schaerer Coffee Joy can simultaneously prepare two beverages. The “barista” button gives you the freedom individually to set the coffee strength.

Impeccably hygienic

With the Schaerer Coffee Joy you can always count on Schaerer’s hygiene standards. They fulfil all international regulations pertaining to milk processing and milk system cleaning. Nothing will detract from your enjoyment of the perfect cup of coffee.

Schaerer Coffee Joy at a glance

The advantages
