

# Overcounter Beer Cooler

Water Cooling System

## AS - 200

# GREEN LINE

Environmentally friendly

NEW MODEL

- The **AS - 200 GREEN LINE** Beer Cooling System is designed for professional beverage cooling in large restaurants and in other catering industry facilities.
- The **GREEN LINE** cooler series is not only environmentally friendly thanks to the use of ecological **refrigerant R-290**, but also has a **20% Higher cooling power** and **20% Lower electric consumption**.

We perform an energy saving system in

the production, the cooler is made of fully recyclable materials and without any polyurethane insulation.

- This machine has a pump with displacement of 8m, thanks to which the cooler may be situated in the cellar keeping the beverage chilled all the way to the tap.
- The **AS-200 GREEN LINE** has a continuous cooling capacity of 140-200 l/h.
- The modern compressor cooling unit uses the power input for direct transfer to chilling, which guarantees minimum energy usage.
- **LINDR cooling technology is 45% more efficient** than its power input.
- The cooling coils are made from stainless steel.
- The materials used meet the highest requirements for hygiene standards and guarantee a long working life of this cooler.
- The cooler also includes an adjustable temperature control with **7 different settings**.
- The overflow on the side of the cooler is for regulation of the capacity of the water tank.
- Simple to use push-in fittings on top of the cooler ensure easy connection to the beverage supply.
- **Two grab handles** on the side of the machine enables the machine to be carried and moved with ease.
